Publisher’s Message

Welcome new readers and new corporate subscribers! It's not unusual for the July High-Profile Monthly (HP) to arrive a little later in the month because of the holiday weekend.

This issue features the people who have been recognized for excellence in the AEC industry in New England. Winning an award represents long term commitments to the profession. For some it's a career booster, for others well deserved recognition for years of dedicated effort. To announce your award, significant to the AEC industry, please send details to editors@high-profile.com.

Life Science facilities continue to provide work as exemplified by our cover photo and life science facilities section starting on page 18. Technology and Innovation, page 38, will now be a regular monthly section in HP.

HP as CBC Media Sponsor

HP is proud to be the Connecticut Building Congress media sponsor again this year. Richard Bergan presided over the 21st Annual Project Team Awards; see page 26. We highly recommend joining an association and sponsoring the activities. You will find it yields a solid ROI on your investment, while supporting our industry’s efforts to improve itself. Volunteer participants of our associations help to increase safety, promote innovation and raise standards of professionalism for all aspects of our industry.

BSA 150th Anniversary

Boston City Hall and the Governor’s Office of Massachusetts proclaimed June 21, 2017 as the Boston Society of Architects/AIA Day.

BSA members and party attendees celebrated at Waterfront Plaza, enjoying food and drinks, music and great conversation.

New App IDs Boston Buildings

The Boston Society of Architects/AIA (BSA) and the BSA Foundation announced the launch of the new AIA Guide to Boston app. The app – the first AIA field guide of its kind in the world – puts the power of design exploration in any user’s hands. Effortless to carry and easy to use, the app features concise articles on Boston’s four centuries of architecture. More than 1,000 sites (400 new since the 2008 print edition), color photos, and scores of guides and tours are included on the elegantly designed iPhone app.

BSA 1050th Anniversary Bash

BSA members and party attendees celebrated at Waterfront Plaza, enjoying food and drinks, music and great conversation.

New App IDs Boston Buildings

The Boston Society of Architects/AIA (BSA) and the BSA Foundation announced the launch of the new AIA Guide to Boston app. The app – the first AIA field guide of its kind in the world – puts the power of design exploration in any user’s hands. Effortless to carry and easy to use, the app features concise articles on Boston’s four centuries of architecture. More than 1,000 sites (400 new since the 2008 print edition), color photos, and scores of guides and tours are included on the elegantly designed iPhone app.

HP hires Gorman

Betsy Gorman has joined the High-Profile Monthly team as account executive. Betsy will head up HP's newly developed corporate services project offering digital promotions, marketing services and multiple subscription packages as a single business development tool for AEC companies.
CBC 2017 Project Team Awards

Hartford, CT – The Connecticut Building Congress (CBC) hosted its 21st Project Team and Scholarship Awards Banquet at the Bond Ballroom in downtown Hartford on June 13. Each year, CBC recognizes projects whose team members have met or surpassed goals and achieved higher project quality through this close collaboration.

Since 2012, CBC has recognized one project team among the winners that stands out for meeting exceptional challenges through close collaboration. The award for Connecticut Building Congress 2017 Project Team of the Year went to Sandy Hook School in Newtown, Connecticut.

Meticulous Metalwork

Our Miscellaneous Metals artisans offer expertise in brass, bronze, brushed aluminum, steel, and exotic metals to create unique fabrications for railings, grand stairways, and complex radial stairs.

We work closely with architects to bring the design intent to life, all while meeting engineering and code requirements.
Providing a collaborative environment that fosters relationships and contributes to the growth and success of the construction industry.
